## PROJECTS

### Mini Project 1

Edmonton

Feb 2022 — Mar 2022

- Integration of SQLite and Python3 to create an interactive system for users who want to watch movies.
- The system includes logging in, creating new account, watching/continuing a movie, searching for a movie, logging out, exiting system, and many more.

### Mini Project 2

Edmonton

Mar 2022 — Mar 2022

- Integrated MongoDB and Python3 to create a system similar to the website IMDB.
- Users can search for a movie based on keywords or genres, search for a particular celebrity using keywords or the movie they acted in, and many more.

### Notes App

Edmonton

Aug 2022 — Aug 2022

- Created a notes app using Java where the user can edit, delete, or create a new note.

### Brain Trainer

Edmonton

Aug 2022 — Aug 2022

- Game app where the user has to answer simple math problems by choosing the correct option before the timer runs out.
